

Welcome to the Hospital del Mar Research Institute

The [Hospital del Mar Medical Research Institute](#), inaugurated in 1948 by Dr. Fleming, is a biomedical and health research centre located in the Barcelona Biomedical Research Park (PRBB).

It is the research center of the [Hospital del Mar](#), and is made up of more than 700 professionals: researchers from the IMIM, clinical researchers from the Hospital del Mar and researchers from the Universitat Pompeu Fabra (UPF), the Universitat Autònoma de Barcelona (UAB) and the BarcelonaBeta Brain Research Center Foundation (BBRC).

The Hospital del Mar is a comprehensive service organization that includes care, teaching and research centers.

The [IMIM Foundation](#) is a public entity created in 1992, whose purpose is research and teaching in the field of Biomedicine and Health and Life Sciences.

Inaugurated in 1948 by Dr. Fleming, the IMIM was consolidated in the 60s and 70s under the direction of Drs. Jordi Gras and Amadeo Foz.

Under the direction of Dr. Jordi Camí (1985-2005), the IMIM is the main driving force behind the creation of the PRBB.

Dr. Josep M^a Antó took over the management of IMIM's research until 2006.

Under Dr. Miguel López-Botet, Director until 2015, the IMIM was accredited as a Health Research Institute (IIS) by the Carlos III Health Institute (ISCIII).

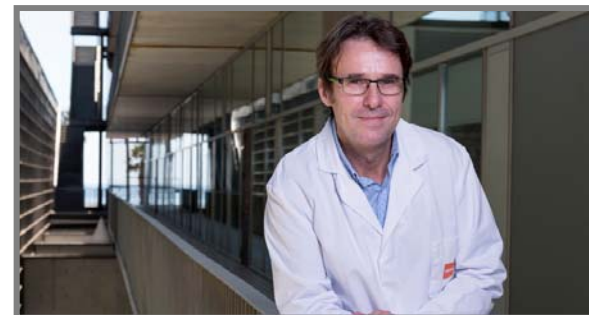

Dr. Rafael de la Torre directed the research structure of the Parc de Salut Mar until the end of 2016.

Dr. Joaquim Bellmunt, as Director of the IMIM, led the research for the next three years.

In October 2019, Dr. Jordi Martínez became Acting Director of the IMIM, while the selection process for a new director began.

Currently and since 2020, [Dr. Joaquín Arribas](#) leads the Institution as Director of the Hospital del Mar Research Institute and Research Director of the Hospital del Mar.

The Hospital del Mar Research Institute is located in the [Barcelona Biomedical Research Park \(PRBB\)](#) since October 2006. The PRBB is a large scientific infrastructure that brings together several research centres in biomedicine and life sciences.

The Hospital del Mar is linked to the Universitat Pompeu Fabra (UPF) and the Universitat Autònoma de Barcelona (UAB) through different teaching centres located on the **Mar University Campus** where Medicine (UAB-UPF), Human Biology (UPF), Biomedical Engineering (UPF), Bioinformatics (UPF-UB-UPC), Nursing (UPF) and Physiotherapy (UAB).

Vision, mission, values and strategic lines

Vision

The vision of the Hospital del Mar Research Institute is to improve health through the rapid translation of scientific discoveries into clinical practice and the market.

Values

- Accountability
- Efficiency
- Development

Strategic plan
2021-2024

Mission

To conduct excellent translational research to be an international reference in biomedical research.

Strategic lines

- **Scientific excellence:** competitiveness, talent care and internationalization.
- **Efficient growth:** attraction of funding, optimization of resources and synergies.
- **Contribution to society:** translational activity, RRI policy and impact.

The institutional policies are aimed at a research for excellence and, therefore, are aligned with the requirements and recommendations of our main accrediting/certifying entities:

It has the recognition of [CERCA - Research Centres of Catalonia](#) as the Catalan Research Institute of Excellence in Catalonia.

It has the recognition of the [Carlos III Health Institute \(ISCIII\)](#) as a Health Research Institute (IIS).

It is accredited with the seal of excellence "HR Excellence in Research" for its commitment and adequacy of institutional policies to the [European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers \(Charter&Code\)](#) in application of the ["Human Research Strategy For Researchers \(HRS4R\)"](#).

[HRS4R at the Institution](#)
[HRS4R Action Plan 2021-2023](#)

RESEARCH

Scientific activities for the generation of new knowledge relevant to the prevention or treatment of diseases

SCIENTIFIC- TECHNICAL SUPPORT

Scientific and technical advice and assistance to research staff

DEVELOPMENT

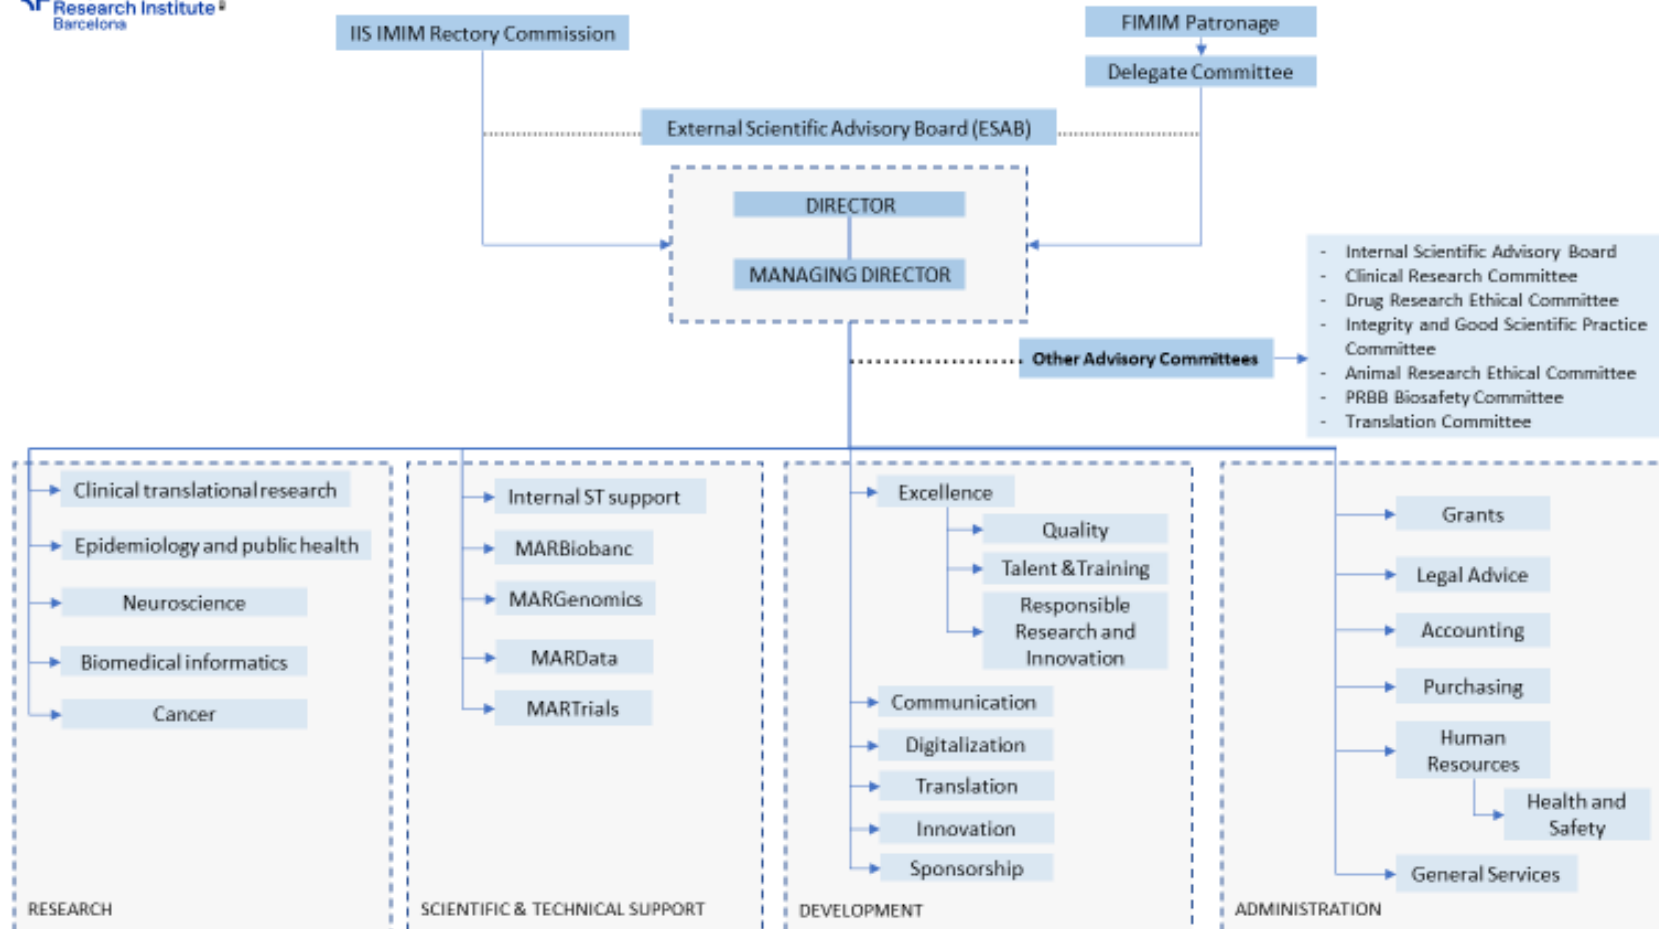

Guarantee the excellence and efficient growth of the institution

ADMINISTRATION

Administrative, legal and logistical processes

Advisory committees

CEIm-PSMAR

Drug Research Ethical Committee (CEIm) aims to ensure that procedures are correctly carried out, from a methodological, ethic and legal point of view, in any kind of research project that poses a physical or psychological risk for a human being. It is managed by the IMIM.

CEEA-PRBB

The Animal Research Ethical Committee evaluates experimental procedures, weighing the necessity of the procedure in relation to the purpose of the study. The committee is managed from the PRBB.

CBS-PRBB

The CBS-PRBB was set up to regulate and supervise activities involving Genetically Modified Organisms (GMOs) undertaken within the PRBB environment. Its purpose is to evaluate the biosafety of scientific projects that employ GMOs or biological agents, as well as any chemical products that may have a particularly significant, complex or dangerous biological effect.

CIR-IMIM

The Committee for the Integrity of Research and Good Scientific Practice is a body constituted with the objective of supporting the quality of research and contributing to maintaining its integrity.

INFO RECERCA

NOTÍCIES

Totes les notícies

RECORDEU: Actuació anual sobre els transformadors dels quadres elèctrics. NOVETAT: Actuació sobre el quadre elèctric de baixa tensió (QEBT). Possibles afectacions. 1 i 2 d'abril (Cat/Eng) (29/03/2023)

Dissabte 01/04 (de 08:00 a 16:00h) i diumenge 02/04 (de 12:00 a 16:00h) es portarà a terme, per part del PRBB, la revisió anual dels transformadors de l'edifici i una actuació especial sobre el quadre elèctric de baixa tensió (QEBT). Segons ha indicat Serveis Generals del PRBB, **hi haurà afectació sobre la força normal (FN) (endolls color blanc) i el sistema de climatització dissabte i sobre la força preferent (FP) (endolls verds) diumenge.** (+)

Prova de megafonia a la Unitat d'Assajos clínics - 31/03/2023 a les 13:00h (Cat/Eng) (27/03/2023)

El proper divendres, 31/03/2022, es portarà a terme la revisió anual del sistema de megafonia de la Unitat d'Assajos Clínics. A les 13:00h està previst que soni l'alarma sonora. Si us plau, tingueu en compte que al sentir aquesta alarma no s'ha de fer cap tipus d'evacuació. Recordem que sols cal evacuar quan s'activa la megafonia de l'edifici amb el missatge explícit o bé els equips d'evacuació dels centres així ho indiquen. (+)

La Fundació "la Caixa" atorga una beca de doctorat a Marc Canela Grimau, investigador de l'Institut Hospital del Mar d'Investigacions Mèdiques (Cat/Cast) (24/03/2023)

És un dels investigadors que es beneficiaran de les ajudes d'aquesta entitat per atreure i retenir el talent. En total, són un centenar de beques, amb una dotació de més de 20 milions d'euros. (+)

Inforecerca 24/03/2023 (Cat/Eng) (24/03/2023)

L'Inforecerca és la publicació setmanal que **recull tots els ajuts publicats durant la setmana** en titulars, amb la possibilitat d'accedir al detall de cada ajut. A més, ofereix informació útil actualitzada, una agenda de cursos relacionats amb el tema de la recerca i un llistat setmanal de publicacions. (+)

PRBB Services

Training intervals

Training program aimed at the entire PRBB community to offer learning opportunities and relationships between members of all the centres. Focused on: Self skills, Interpersonal skills, System skills.

Publications

El-lipse is a digital publication with scientific news about the activities of PRBB residents, cultural information spaces, interviews, etc.

Lactation room

PRBB offers nursing mothers a comfortable, private and safe place to express breast milk or feed their babies.

Offers

The PRBB manages service offers for workers, mainly from companies located in its surroundings: nursery schools, restaurants, etc.

Equality, Diversity and Inclusion Committee

The PRBB has an EDI Committee with representatives from all the centres. It is responsible for the development of inter-institutional initiatives to create awareness and promote a real environment of equality.

Activities

Different activities take place in the building to promote the relationship of its residents. For example, a choir, an orchestra, yoga and beach volleyball.

LGTBIAQ+ Group

The PRBB has an informal LGTBIAQ+ group open to everyone, which aims to network, discuss and organize relevant activities for its members.

** You will find all the information on the Intranet.*

Thank you!
