

# EPIDEMIOLOGY AND PUBLIC HEALTH

**Unravelling shared and non-shared inflammatory signatures of health-to-disease transition: a proteomic approach.**

**Solange González Chiappe, MD, PhD**

Working as a post-doc at Max Delbrück Center in Berlin, Germany. After working as an internal medicine specialist, she worked for ten years in France and Switzerland on auto-immune disease epidemiology. She is now studying inflammatory biomarkers in health-to-chronic disease transition.
